The History of the House of Rothschild

by Anonymous Andy and Daryl Bradford Smith, Dec 2005

**Also, was the ADL created in response to the lynching of Leo Frank,
the president of the Atlanta B'nai B'rith?**

[The ADL](#)

The Rothschilds

The Rothschilds have been in control of the world for a very long time, and I produce my evidence for this below in a timeline.

The Rothschilds have, with their founding of Zionism, betrayed the principles of the Torah, and have caused great suffering around the world.

I name individual Rothschilds where I can, but due to the secrecy which they shroud themselves in, naming the exact Rothschild is not always possible.

I also wish to point out that this article is not criticising everyone with the name Rothschilds, simply the criminal element of that group that have carried out the treachery I detail below.

Furthermore a great deal of this criminal element no longer

carry the name Rothschild and there is a great deal of evidence pointing to the fact that those people currently in control of the United States, British and Israeli government are in fact Rothschilds.

Rothschild Timeline

1743: Mayer Amschel Bauer, born Frankfurt, Germany, the son of Moses Amschel Bauer, a money lender and the proprietor of a counting house. Over the entrance door he places a red sign.

This sign is a six pointed star (which geometrically and numerically translates into the number 666) which under Rothschild instruction will end up on the Israeli flag some two centuries later.

1753: Gutele Schnaper (future wife of Mayer Amschel bauer) born.

1760: During this decade Mayer Amschel Bauer works for a bank owned by the Oppenheimers' in Hanover, Germany, he is highly successful and becomes a junior partner. Whilst working at the bank he becomes acquainted with General von Estorff.

Following his father's death, Bauer returns to Frankfurt to take over his father's business. Bauer recognises the significance of the red sign and changes his name from Bauer to Rothschild, after the red sign signifying 666 hanging over the entrance door ("Rot," is German for, "Red," "Schild," is German for, "Sign").

Now Mayer Amschel Rothschild, he discovers that General von Estorff is now attached to the court of Prince William of Hanau. He therefore makes the General's re-acquaintance on the pretext of selling him valuable coins and trinkets at discounted prices.

As he plans, Rothschild is subsequently introduced to Prince William himself who is more than pleased with discounted prices he charges for his rare coins and trinkets, and Rothschild offers him a bonus for any other business the Prince can direct his way. Rothschild subsequently becomes close associates with Prince William, and ends up doing business with him and members of the court.

1769: Mayer Amschel Rothschild is given permission by Prince William to hang a sign on the front of his business premises declaring that he is, "M. A. Rothschild, by appointment court factor to his serene highness, Prince William of Hanau."

1770: Mayer Amschel Rothschild marries Gutele Schnaper.

Mayer Amschel Rothschild draws up plans for the creation of the Illuminati and entrusts Adam Weishaupt with its organization and development.

1773: Amschel Mayer Rothschild born.

1774: Salomon Mayer Rothschild born.

1777: Nathan Mayer Rothschild born.

1788: Kalmann (Carl) Mayer Rothschild Born.

1791: The Rothschilds through Alexander Hamilton (their agent in George Washington's cabinet) set up a central bank in the USA called the Bank of the United States. This is established with a 20 year charter.

1792: Jacob (James) Mayer Rothschild born.

1796: Amschel Mayer Rothschild marries Eva Hanau.

1798: Nathan Mayer Rothschild leaves Frankfurt for Manchester, England, where with the help of his father and brothers he exports English textiles to Europe.

1800: Salomon Mayer Rothschild marries Caroline Stern.

1806: Napoleon states that it is his, "object to remove the house of Hess-Cassel from rulership and to strike it out of the list of powers." On hearing this, Prince William of Hanau, flees Germany, goes to Denmark and entrusts his fortune valued at \$3,000,000 at that time to Mayer Amschel Rothschild for safekeeping.

Nathan Mayer Rothschild marries Hannah Barent Cohen the daughter of a wealthy London merchant and begins to move his business to London.

1808: Nathan Mayer Rothschild has his first son born Lionel Nathan de Rothschild.

1809: As the Channel blockade was making the export

business difficult, Nathan Mayer Rothschild, went to New Street, London and set himself up as a banker.

1810: Sir Francis Baring and Abraham Goldsmid die. This leaves Nathan Mayer Rothschild as the remaining major banker in England.

Salomon Mayer Rothschild goes to Vienna, Austria and sets up the bank, M. von Rothschild und Söhne.

1811: The charter for the Rothschilds Bank of the United States runs out and Congress votes against its renewal. At the time Andrew Jackson (who would become the 7th President of the United States from 1829 to 1837) says, “If Congress has a right under the Constitution to issue paper money, it was given them to use by themselves, not to be delegated to individuals or corporations.”

Nathan Mayer Rothschild is not amused and he stated, “Either the application for renewal of the charter is granted, or the United States will find itself involved in a most disastrous war.”

Andrew Jackson’s response to this is to say, “You are a den of thieves vipers, and I intend to rout you out, and by the Eternal God, I will rout you out.”

Nathan Mayer Rothschild’s reply to that being, “Teach those impudent Americans a lesson. Bring them back to colonial status.”

1812: Backed by Rothschild money, the British declare war on the United States. The Rothschilds plan was to cause the United States to build up such a debt in fighting this war that they would have to surrender to the Rothschilds and allow the charter for the Rothschild owned Bank of the United States to be renewed.

Mayer Amschel Rothschild dies. In his will he lays out specific laws that the House of Rothschild were to follow: all key positions in the family business were only to be held by family members; only male members of the family were allowed to participate in the family business (It is important to note that Mayer Amschel Rothschild also has five daughters, so today the spread of the Rothschild Zionist dynasty without the Rothschild name is far and wide); the family was to intermarry with it’s first and second cousins to preserve the family fortune; no public inventory of his estate was to be published; no legal action was to be taken with regard to the value of the inheritance; the eldest son of the eldest son was to

become the head of the family (this condition could only be overturned when the majority of the family agreed otherwise).

This was straightaway the case and Nathan Mayer Rothschild was elected head of the family following his father, Mayer Amschel Rothschild's death.

Jacob (James) Mayer Rothschild goes to Paris, France to set up the bank, de Rothschild Frères.

Nathaniel de Rothschild, the son in law of Jacob (James) Mayer Rothschild, born. 1814: With regard to the \$3,000,000 Prince William of Hanau had entrusted to Mayer Amschel Rothschild for safekeeping, for an account of what happened next we turn to the Jewish Encyclopaedia, 1905 edition, Volume 10, page 494, which states,

“According to legend this money was hidden away in wine casks, and, escaping the search of Napoleon's soldiers when they entered Frankfurt, was restored intact in the same casks in 1814, when the elector (Prince William of Hanau) returned to the electorate (Germany). The facts are somewhat less romantic, and more businesslike.”

This last line indicates the money was never returned by Rothschild to Prince William of Hanau. The encyclopaedia goes on to state, Nathan Mayer Rothschild invested this \$3,000,000 in, “gold from the East India company knowing that it would be needed for Wellington's peninsula campaign.”

On the stolen money Nathan made, “no less than four profits: i) On the sale of Wellington's paper which he bought at 50 cents on the dollar and collected at par; ii) on the sale of gold to Wellington; iii) on its repurchase; and iv) on forwarding it to Portugal.”

1815: The five Rothschild brothers work to supply gold to both Wellington's army (through Nathan in England) and Napoleon's army (through Jacob in France), and begin their policy of funding both sides in wars.

Due to the fact that these brothers had banks spread out across Europe this gave them the facility to set up an unrivalled network of secret routes and fast couriers. These Rothschild couriers were the only merchants allowed to pass through the English and French blockades.

It was these couriers who also kept Nathan Mayer Rothschild up to date with how the war was going so he could use that intelligence to buy and sell from his position on the stock exchange in accordance with that intelligence.

At that time British bonds were called consols and they were traded on the floor of the stock exchange. Nathan Mayer Rothschild instructed all his workers on the floor to start selling consols. They made all the other traders believe that the British had lost the war so they started selling frantically.

Therefore the consols plummeted in value which was when Nathan Mayer Rothschild discreetly instructed his workers to purchase all the consols they could lay their hands on. When news came through that the British had actually won the war, the consols went up to a level even higher than before the war ended leaving Nathan Mayer Rothschild with a return of approximately 20 to 1 on his investment.

This gave the Rothschild family complete control of the British economy, now the financial centre of the world following Napoleon's defeat, and forced England to set up a new Bank of England, which Nathan Mayer Rothschild controlled. Nathan Mayer Rothschild would later state,

“I care not what puppet is placed upon the throne of England to rule the Empire on which the sun never sets. The man who controls Britain's money supply controls the British Empire, and I control the British money supply.”

The Rothschilds also use their control of the Bank of England to replace the method of shipping gold from country to country and instead used their five banks spread across Europe to set up a system of paper debits and credits, the banking system of today.

1816: The charter for the Bank of the United States is renewed for another twenty years with the Rothschilds in Control of the American money supply again. The British war against the America therefore ends with the deaths of thousands of British and American soldiers, but the Rothschilds get their bank.

1818: Following the French securing massive loans in 1817 in order to help rebuild after their disastrous defeat at Waterloo, Rothschild agents bought vast amounts of French government bonds causing their value to increase. On November 5th they

dumped the lot on the open market causing their value to plummet and France to go into a financial panic.

The Rothschilds then stepped in to take control of the French money supply. This was the same year the Rothschilds were able to loan £5,000,000 to the Prussian government.

1822: The emperor of Austria made the five Rothschild brothers Barons. Nathan Mayer Rothschild chose not to take up the title.

1827: Sir Walter Scott publishes his nine volume set, *The life of Napoleon* and in volume two he states that the French Revolution was planned by the Illuminati (Adam Weishaupt) and was financed by the money changers of Europe (The Rothschilds).

1835: President Andrew Jackson (the 7th President of the United States from 1829 to 1837) starts depositing federal funds into banks directed by democratic bankers rather than in the Rothschild controlled Bank of the United States. An assassination attempt is made on President Jackson and he would later claim that he knew the Rothschilds were responsible for that attempted assassination.

The Rothschilds acquire the rights in the Almadén quicksilver mines in Spain. This was at the time the biggest concession in the world and as quicksilver was a vital component in the refining of gold or silver this gave the Rothschilds a virtual world monopoly.

1837: Following his years of fighting against the Rothschilds and their central bank in America, President Andrew Jackson finally succeeds in throwing the Rothschilds central bank out of America. It would not be until 1913 that the Rothschilds would be able to set up their third central bank in America, the Federal Reserve.

1836: Nathan Mayer Rothschild dies.

1838: Amschel Mayer Rothschild states, "Permit me to issue and control the money of a nation, and I care not who makes its laws."

1840: The Rothschilds become the Bank of England's bullion brokers. They set up agencies in California and Australia.

1841: President John Tyler (the 10th President of the United States From 1841 to 1845) vetoed the act to renew the charter for the Bank of the United States. He goes on to receive

hundreds of letters threatening him with assassination.

1844: Salomon Mayer Rothschild purchases the United Coal Mines of Vítkovice and Austro-Hungarian Blast Furnace Company that would go on to be one of the top ten global industrial concerns.

Benjamin Disraeli (who would go on to become British Prime Minister twice) publishes *Coningsby*, in which he characterises Nathan Mayer Rothschild as,

“the Lord and Master of the money markets of the world, and of course virtually Lord and Master of everything else. He literally held the revenues of Southern Italy in pawn, and Monarchs and Ministers of all countries courted his advice and were guided by his suggestions.”

1845: Andrew Jackson (The 7th President of the United States) dies. This Great Patriot leaves instructions in his will to have, “I Killed The Bank,” inscribed on his headstone, a reference to the fact he banished the Rothschilds second Central bank in the United States from the US in 1837.

Jacob (James) Mayer Rothschild, now known as Baron James de Rothschild wins the contract to build the first major railway line across the country. This was called the Chemin De Fer Du Nord and ran initially from Paris to Valenciennes and then joined with the Austrian rail network built by his brother Salomon Mayer Rothschild.

1847: Lionel De Rothschild now married to the daughter of his uncle, Kalmann (Carl) Mayer Rothschild, is elected to the parliamentary seat for the City of London.

A requirement for entering parliament was to take an oath in the true faith of a Christian. Lionel De Rothschild refused to do this as he was Jewish and his seat in parliament remained empty for 11 years until new oaths were allowed.

1848: Eva Hanau, Amschel Mayer Rothschild’s wife dies.

1849: Gutele Schnaper, Mayer Amschel Rothschild’s wife dies. Before her death she would state, “If my sons did not want wars, there would be none.”

1850: Construction begins this decade on the manor houses of Mentmore in England and Ferrières in France, more Rothschilds Manors will follow throughout the world, all of

them filled with works of art.

1852: N.M. Rothschild & Sons began refining gold and silver for the Royal Mint and the Bank of England and other international customers.

1853: Nathaniel de Rothschild, the son in law of Jacob (James) Mayer Rothschild, purchased Château Brane Mouton, the Bordeaux vineyard of Mouton, and renamed it Château Mouton Rothschild.

1854: Caroline Stern, Salomon Mayer Rothschild's wife, dies.

1855: Amschel Mayer Rothschild dies. Salomon Mayer Rothschild dies. Kalmann (Carl) Mayer Rothschild dies.

1858: Lionel De Rothschild finally takes his seat in parliament when the requirement to take an oath in the true faith of a Christian is broadened to include other oaths. He becomes the first Jewish member of the British parliament.

1861: President Abraham Lincoln (16th President of the United States from 1860 till his assassination in 1865) approaches the Rothschilds to try to obtain loans to support the ongoing American civil war.

The Rothschilds agree provided Lincoln allows them a Charter for another United States central bank and are prepared to pay 24% to 36% interest on all monies loaned.

Lincoln was very angry about this high level of interest and so he printed his own debt free money and informed the public that this was now legal tender for both public and private debts.

1862: By April \$449,338,902 worth of Lincoln's debt free money had been printed and distributed. He went on to state,

“We gave the people of this republic the greatest blessing they ever had, their own paper money to pay their own debts.”

That same year The Times of London publishes A story containing the following statement,

“If that mischievous financial policy, which had its origin in the North American Republic, should become indurated down to a fixture, then that government will furnish its own money without cost. It will pay off debts and be without a debt. It

will have all the money necessary to carry on its commerce. It will become prosperous beyond precedent in the history of civilized governments of the world.

The brains and the wealth of all countries will go to North America. That government must be destroyed or it will destroy every monarchy on the globe.”

1863: The Rothschild banking house in Naples, Italy, C. M. de Rothschild e figli, closes following the unification of Italy. The Rothschilds use one of their agents in America, John D. Rockefeller to form an oil business called Standard Oil which eventually takes over all of its competition.

1864: President Abraham Lincoln discovers the Tsar of Russia, Alexander II (1855 – 1881), was having problems with the Rothschilds as well as he was refusing their continual attempts to set up a central bank in Russia.

President Lincoln asks the Tsar for help in the Civil War and the Tsar sent part of his fleet to anchor off New York and the other part off California. The Tsar made it clear to the British, French and Spanish that if they attacked either side, Russia would take the side of President Lincoln. Lincoln subsequently won the Civil War.

1865: In a statement to Congress, President Abraham Lincoln states,

“I have two great enemies, the Southern Army in front of me, and the financial institution in the rear. Of the two, the one in my rear is my greatest foe.”

Later that year President Lincoln is assassinated.

Nathaniel de Rothschild becomes member of parliament for Aylesbury in Buckinghamshire.

1868: Jacob (James) Mayer Rothschild dies, shortly after purchasing Château Lafite, one of the four great premier grand cru estates of France. He is the last of Mayer Amschel Rothschild’s sons to die.

1870: Nathaniel de Rothschild dies.

1873: The loss making Rio Tinto copper mines in Spain, are purchased by a group of foreign financiers including the

Rothschilds. These mines represented Europe's largest source of copper.

1875: N M Rothschild & Sons undertake a share issue to raise capital for the first channel tunnel project to link France to England, with half of its capital coming from the Rothschild owned Compagnie du Chemin de Fer du Nord.

This year the Rothschilds also Provided Prime Minister Benjamin Disraeli the finance for the British government to acquire a major stake in the Suez Canal. This deal was done in great secrecy by Lionel De Rothschild.

1876: Otto von Bismarck states,

“The division of the United States into two federations of equal force was decided long before the civil war by the high financial power of Europe. These bankers were afraid that the United States, if they remained in one block and as one nation, would attain economical and financial independence, which would upset their financial domination over the world.

The voice of the Rothschilds predominated. They foresaw the tremendous booty if they could substitute two feeble democracies, indebted to the financiers, to the vigorous Republic, confident and self-providing. Therefore they started their emissaries in order to exploit the question of slavery and thus dig an abyss between the two parts of the Republic.”

1881: President James A. Garfield (The 20th President of the United States who lasted only 100 Days) states two weeks before he was assassinated,

“Whoever controls the volume of money in our country is absolute master of all industry and commerce...and when you realize that the entire system is very easily controlled, one way or another, by a few powerful men at the top, you will not have to be told how periods of inflation and depression originate.”

Edmond James de Rothschild has a son Maurice de Rothschild.

1883: After 6,000 feet of tunnel in the channel tunnel project being excavated, the British government halt the project citing the fact that it would be a threat to Britain's security.

1885: Nathaniel Rothschild, son of Lionel De Rothschild, becomes the first Jewish peer and is takes the title of Lord Rothschild.

1886: The French Rothschild bank, de Rothschild Frères obtains substantial amounts of Russia's oil fields and forms the Caspian and Black Sea Petroleum Company, which quickly becomes the world's second largest oil producer.

1887: The Rothschilds finance the amalgamation of the Kimberley diamond mines in South Africa. They subsequently become the biggest shareholders of this company, De Beers, and mine precious stones in Africa and India.

1888: Noémie Halphen, future wife of Maurice de Rothschild born.

1891: The British Labour Leader makes the following statement on the subject of the Rothschilds,

“This blood-sucking crew has been the cause of untold mischief and misery in Europe during the present century, and has piled up its prodigious wealth chiefly through fomenting wars between States which ought never to have quarrelled.

Whenever there is trouble in Europe, wherever rumours of war circulate and men's minds are distraught with fear of change and calamity you may be sure that a hook-nosed Rothschild is at his games somewhere near the region of the disturbance.”

Comments like this worry the Rothschilds and towards the end of the 1800's they purchase Reuters news agency so they can have some control of the media.

1895: Edmond James de Rothschild the youngest son of Jacob (James) Mayer Rothschild visits Palestine and subsequently supplies the funds to found the first Jewish colonies there, this is to further their long term objective of creating a Rothschild formed country.

1897: The Rothschilds found the Zionist Congress and arrange its first meeting in Munich. However due to local

Jewish opposition this is re-arranged for Basle, Switzerland and takes place on 29 August.

The meeting is chaired by Theodor Herzl. Herzl is subsequently elected President of the Zionist Organisation which adopts the, "Rothschild Red Sign," as the Zionist flag which 51 years later will end up as the flag of Israel.

1898: Ferdinand de Rothschild dies.

1901: The Rothschild banking house in Frankfurt, Germany, M. A. von Rothschild und Söhne, closes as there is no male Rothschild heir to take it on.

1902: Philippe de Rothschild born.

1906: Due to growing instability in the region and increasing competition from Standard Oil, the Rothschilds sell the Caspian and Black Sea Petroleum Company to Royal Dutch and Shell. 1907: Rothschild, Jacob Schiff, the head of Kuhn, Loeb and Co., in a speech to the New York Chamber of Commerce, warns that,

“Unless we have a Central Bank with adequate control of credit resources, this country is going to undergo the most severe and far reaching money panic in its history.”

Suddenly America finds itself in the middle of another typical run of the mill Rothschild engineered financial crisis, which ruins as usual ruins the lives of innocent people throughout America and makes billions for the Rothschilds. 1909: Maurice de Rothschild marries Noémie Halphen.

1911: John F. Hylan, then mayor of New York, states,

“The real menace of our republic is the invisible government which, like a giant octopus, sprawls its slimy length over our city, state and nation. At the head is a small group of banking houses, generally referred to as international bankers.”

Werner Sombart, in his book *The Jews and Modern Capitalism*, stated that from 1820 on, it was the, "Age of the Rothschild," and concluded that there was, "Only one power in Europe, and that is Rothschild."

1912: In the December issue of, "Truth," magazine, George R. Conroy states of banker Jacob Schiff,

“Mr Schiff is head of the great private banking house of Kuhn, Loeb, and co, which represents the Rothschilds interests on this side of the Atlantic. He has been described as financial strategist and has been for years the financial minister of the great impersonal power known as Standard Oil. He was hand in glove with the Harrimans, the Goulds, and the Rockefellers in all their railroad enterprises and has become the dominant power in the railroad and financial power of America.”

1913: The Rothschilds set up the Anti Defamation League (ADL) in the United States designed to brand as, “anti-Semitic,” anyone who questions or challenges the Global Elite.

Strangely enough, the same year that they do this they also set up their last and current central bank in America, the Federal Reserve. Congressman Charles Lindbergh stated following the passing of the Federal Reserve Act on December 23,

“The Act establishes the most gigantic trust on earth. When the President signs this Bill, the invisible government of the monetary power will be legalized.....The greatest crime of the ages is perpetrated by this banking and currency bill.”

It is important to note that the Federal Reserve is a private company, it is neither Federal nor does it have any Reserve. It is conservatively estimated that profits exceed \$150 billion per year and the Federal Reserve has never once in its history published accounts.

1914: The Rothschilds have control of the three European news agencies, Wolff (est. 1849) in Germany, Reuters (est. 1851) in England, and Havas (est. 1835) in France.

The Rothschilds use Wolff to manipulate the German people into a fervour for war. From now on the Rothschilds are rarely reported in the media, because they own the media.

1918: The Rothschilds order the execution by the Bolsheviks they control, of Tsar Nicholas II and his entire family in Russia. This is the Rothschilds revenge for Tsar Alexander II siding with President Abraham Lincoln in 1864.

It is extremely important for them to slaughter the entire family including women and children in order to show the world, this is what happens if you ever attempt to cross the

Rothschilds.

1919: Following the end of the first world war, the Versailles peace conference is held to decide reparations that the Germans need to pay to the victors. Also decided at this conference is the confirmation of Israel as a Jewish homeland, with the control of Palestine being given to Britain whilst this handover takes place.

At that time less than one percent of the population of Palestine was Jewish. The host of this conference is its boss, Baron Edmund de Rothschild.

On March 29th The Times of London reports on the Bolsheviks in Russia,

“One of the curious features of the Bolshevik movement is the high percentage of non Russian elements among its leaders. Of the twenty or thirty commissaries, or leaders, who provide the central machinery of the Bolshevik movement, not less than 75% were Jews.”

It is reported that the Rothschilds were angry with the Russians because they were not prepared to allow them to form a central bank within their nation. They therefore gathered groups of Jewish spies and sent them into Russia to drum up a revolution.

They were given Russian names, for example Trotsky was a member of the first group and his original name was Bronstein. These groups were sent to areas throughout Russia to incite riots and rebellion. The Jewish Post International Edition, week ending January 24th 1991, confirms Vladimir Lenin was Jewish.

N. M. Rothschild & Sons' are given a permanent role to fix the world's daily gold price. This takes place in the City of London offices, daily at 1100 hours, in the same room until 2004.

1920: Winston Churchill writes in an article in the Illustrated Sunday Herald, dated February 8th,

“From the days of Illuminati leader Weishaupt, to those of Karl Marx, to those of Trotsky, this worldwide conspiracy has been steadily growing.

And now at last this band of extraordinary personalities from the underworld of the great cities

of Europe and America, have gripped the Russian people by the hair of their heads and become the undisputed masters of that enormous empire.”

1926: N. M. Rothschild & Sons refinance the Underground Electric Railways Company of London Ltd which has a controlling interest in the entire London Underground transport system. Maurice de Rothschild has a son, Edmond de Rothschild.

1934: Swiss banking secrecy laws are reformed and it becomes an offence resulting in imprisonment for any bank employee to violate bank secrecy. This is all in preparation for the Rothschild engineered Second World War in which as usual they will fund both sides.

Edmond de Rothschild dies.

1938: The Rothschilds Austrian banking house in Vienna, S. M. von Rothschild und Söhne, closes following the Nazi occupation of Austria.

1939: I.G. Farben the leading producer of chemicals in the world and largest German producer of steel dramatically increases its production. This increased production is almost exclusively used to arm Germany for the Second World War. This company was controlled by the Rothschilds and would go on to use Jews and other disaffected peoples as slave labour in the concentration camps.

1940: Hansjürgen Koehler in his book, “Inside The Gestapo,” states the following, of Maria Anna Schicklgruber, Adolf Hitler’s grandmother,

“A little servant girl.....came to Vienna and became a domestic servant.....at the Rothschild mansion.....and Hitler’s unknown grandfather must be probably looked for in this magnificent house.”

This is backed up by Walter Langer in his book, “The Mind Of Hitler,” in which he states,

“Adolf’s father, Alois Hitler, was the illegitimate son of Maria Anna Schicklgruber.....Maria Anna Schicklgruber was living in Vienna at the time she conceived. At that time she was employed as a servant in the home of Baron Rothschild. As soon as the family discovered her pregnancy she was

sent back home.....where Alois was born.”

1943: February 18th, Zionist, Izaak Greenbaum, head of the Jewish Agency Rescue Committee, in a speech to the Zionist Executive Council states,

“If I am asked, could you give from the UJA (United Jewish Appeal) monies to rescue Jews, I say, no and I say again no!”

He would go onto state, “One cow in Palestine is worth more than all the Jews in Poland!”

1948: In the Spring of this year, the Rothschilds bribe President Harry S. Truman (33rd President of the United States 1945 – 1953) to recognise Israel (Rothschild owned Zionist not Jewish territory) as a sovereign state with \$2,000,000 which they give to him on his campaign train.

They then declare Israel to be a sovereign Jewish state in Palestine and within half an hour President Truman declared the United States to be the first foreign nation to recognise it.

The Flag of Israel is unveiled. Despite tremendous opposition the emblem on the flag is the Rothschild, “Red Sign/Star Of David,” which angers many Jews who believe the, “Menorah,” the oldest Jewish symbol should be used.

It is pointed out that the, ”Red Sign/Star of David,” used on the Jewish flag is not even a Jewish symbol, but of course as the Rothschild Zionists use it that is what ends up on the Rothschild, I mean Zionist, I mean Israeli flag.

1953: N. M. Rothschild & Sons found the British Newfoundland Corporation Limited to develop 60,000 square miles of land in Newfoundland, Canada, which comprised a power station to harness the power of the Hamilton (later renamed Churchill) Falls. At the time this was the largest construction project ever to be undertaken by a private company.

1955: Edmond de Rothschild founds Compagnie Financiere, Paris.

1957: James de Rothschild dies and it is reported (by the Rothschild owned media) that he bequeaths a large sum of money to the state of Israel to pay for the construction of their parliament building, the Knesset. He states that the Knesset should be, “a symbol, in the eyes of all men, of the

permanence of the State of Israel.”

Maurice de Rothschild dies in Paris.

1962: de Rothschild Frères establishes Imétal as an umbrella company for all their mineral mining interests.

Frederic Morton publishes his book, *The Rothschilds*, in which he states,

“Though they control scores of industrial, commercial, mining and tourist corporations, not one bears the name Rothschild. Being private partnerships, the family houses never need to, and never do, publish a single public balance sheet, or any other report of their financial condition.”

This attitude reveals the true aim of the Rothschilds, to eliminate all competition and create their own worldwide monopoly.

1963: On June 4th President John F. Kennedy (the 35th President of the United States 1961 – 1963) signs Executive Order 11110 which returned to the U.S. government the power to issue currency, without going through the Rothschilds owned Federal Reserve.

Less than 6 months later on November 22nd, president Kennedy is assassinated by the Rothschilds for the same reason as they assassinated President Abraham Lincoln in 1865, he wanted to print American money for the American people, as oppose to for the benefit of a money grabbing war mongering foreign elite. This Executive Order 11110, is rescinded by President Lyndon Baines Johnson (the 36th President of the United States 1963 to 1969) on Air Force One from Dallas to Washington, the same day as President Kennedy was assassinated.

Edmond de Rothschild establishes La Compagnie Financière Edmond de Rothschild (LCF), in Switzerland as a venture capital house. This later develops into an investment bank and asset management company with many affiliates. He also marries his wife Nadine and they have a son, Benjamin de Rothschild.

1967: de Rothschild Frères is renamed Banque Rothschild.

1968: Noémie Halphen, wife of Maurice de Rothschild dies.

1970: British Prime Minister Edward Heath makes Lord

Victor Rothschild the head of his policy unit. Whilst he is in that role Britain enters the European Community.

1973: In his book, *None Dare Call It Conspiracy*, Gary Allen states,

“One major reason for the historical blackout on the role of the international bankers in political history is the Rothschilds were Jewish...

....The Jewish members of the conspiracy have used an organisation called The Anti-Defamation League (ADL) as an instrument to try and convince everyone that any mention of the Rothschilds and their allies is an attack on all Jews.

In this way they have stifled almost all honest scholarship on international bankers and made the subject taboo within universities. Any individual or book exploring this subject is immediately attacked by hundreds of ADL communities all over the country. The ADL has never let the truth or logic interfere with its highly professional smear jobs...

....Actually, nobody has a right to be more angry at the Rothschild clique than their fellow Jews...

....The Rothschild empire helped finance Adolf Hitler.”

N. M. Rothschild & Sons British Newfoundland Corporation, Churchill Falls project in Newfoundland, Canada, is completed. N. M. Rothschild & Sons also create a new asset management part of the company which traded worldwide. This eventually became, Rothschild Private Management Limited.

Edmond de Rothschild, a great-grandson of Jacob (James) Mayer Rothschild, bought the cru bourgeois estate of Château Clarke in Bordeaux.

1980: The global phenomenon of privatisation starts. The Rothschilds are behind this from the very beginning in order to seize control of all publicly owned assets worldwide.

1981: Banque Rothschild is nationalised by the French government. The new bank is called, Compagnie Européenne de Banque. The Rothschilds subsequently set up a successor to this French bank, Rothschild & Cie Banque (RCB), which

goes on to become a leading French investment house.

1985: N. M. Rothschild & Sons advise the British government on the privatisation of British Gas. They subsequently advise the British government on virtually all of their other privatisations of state owned assets including: British Steel; British Coal; all the British regional electricity boards; and all the British regional water boards.

1987: Edmond de Rothschild creates the World Conservation Bank which is designed to transfer debts from third world countries to this bank and in return those countries would give land to this bank. This is designed so the Rothschilds can gain control of the third world which represents 30% of the land surface of the Earth.

1988: Philippe de Rothschild dies.

1989: The London and Paris Rothschilds announce the launch of a new subsidiary, Rothschild GmbH, in Frankfurt, Germany.

1995: Former atomic energy scientist, Dr Kitty Little claims the Rothschilds now control 80% of the world's uranium supplies giving them a monopoly over nuclear power.

1996: Amschel Rothschild, 41, is strangled with the heavy cord of his own towel robe in his hotel room in Paris. French Prime Minister orders the French Police to close their investigation, and Zionist, Rupert Murdoch instructs his editors and news managers around the world to report it as a heart attack, if they need to report it at all.

1997: Edmond de Rothschild dies in Geneva of emphysema.

1998: The European Central Bank is set up in Frankfurt, the city from which the Rothschilds originate.

2001: On September 11th the attack on the World Trade Center is orchestrated by Britain, America and Israel under the orders of the Rothschilds as a pretext for removing the liberty of people worldwide in exchange for security, just as they did with the Reichstag fire in Germany where the citizens were lied to in order to give up liberty for security.

They also will use the attacks to gain control of the few nations in the world who don't allow Rothschild central banks and so less than one month after these attacks, US forces attack Afghanistan, one of only 7 nations in the world who don't have a Rothschild controlled central bank.

One week prior to the WTC attack, the Zim Shipping Company moves out of its offices in the WTC, breaking its lease and costing the company \$50,000. No reason has ever been given, but Zim Shipping Company is half owned by the State of Israel (The Rothschilds).

2003: The United States invade Iraq which is now one of six nations left in the world who don't have a Rothschild controlled central bank.

2005: On 7 July the London Underground Network is bombed. Israel's Finance Minister, Benjamin Netanyahu is in London on the morning of the attacks in order to attend an economic conference in a hotel over the underground station where one of the blasts occurred, but stayed in his hotel room instead after he had been informed by Israeli intelligence officials attacks were expected. There are now only 5 nations on the world left without a Rothschild controlled central bank: Iran; North Korea; Sudan; Cuba; and Libya.
